Plain-language steps for scanning and checking cards: sign in, scan, review, duplicates, approve, undo and export.

Pilot guide · updated Nov 12, 2026 · version 0.4.14

Greater Akron Chamber · business-card scanner pilot · internal use only

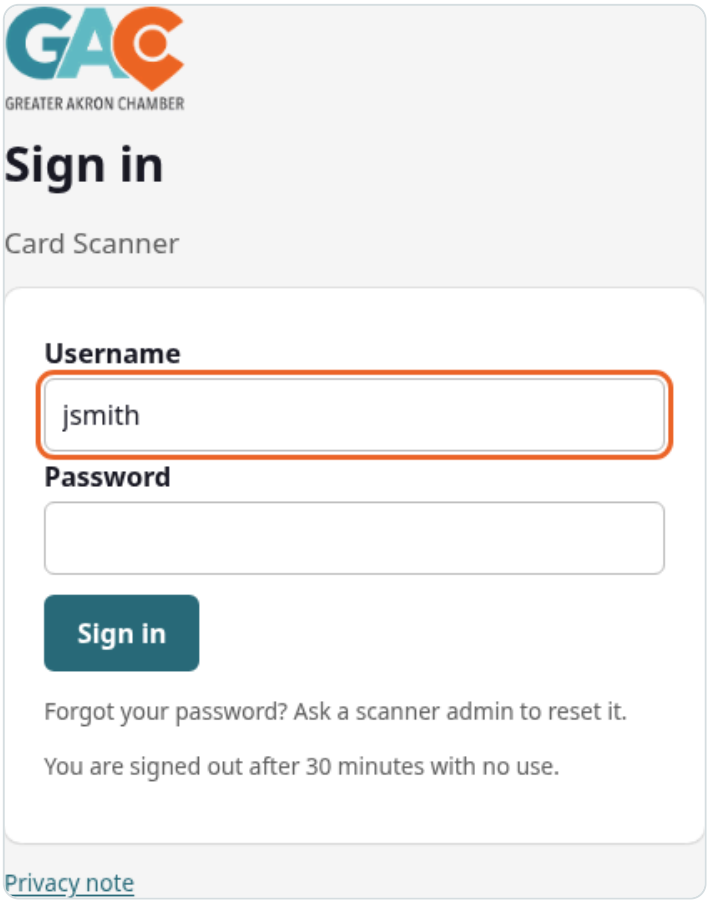

Admin jobs: **Admin Guide**. Watch the **2-minute demo video**.

Contents

- 1. Sign in
- 2. Scan
- 3. Review
- 4. Same person?
- 5. Export
- 6. Ask an admin

1. Sign in

Use **your own** username and password. The top of the page says **You are: your name**.

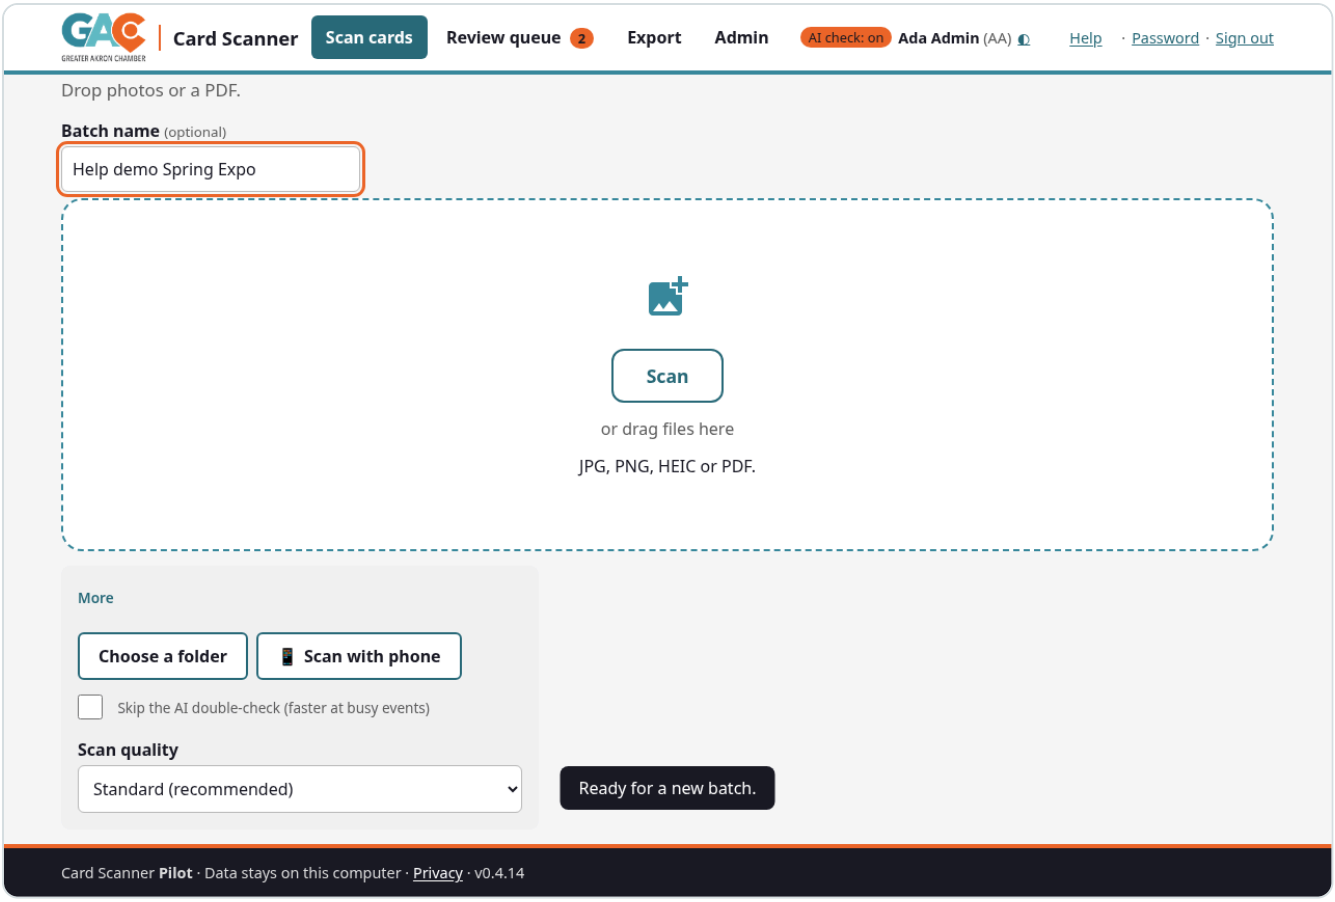

▼ More

- Not you? Click **Not you?**. It signs you out.
- After 30 minutes with no clicks you are signed out (not while photos upload).

2. Scan

1. Click **Scan cards**.
2. Type a **batch name** (e.g. *After Hours*).
3. Drop the photos on the box, or click **Scan**.

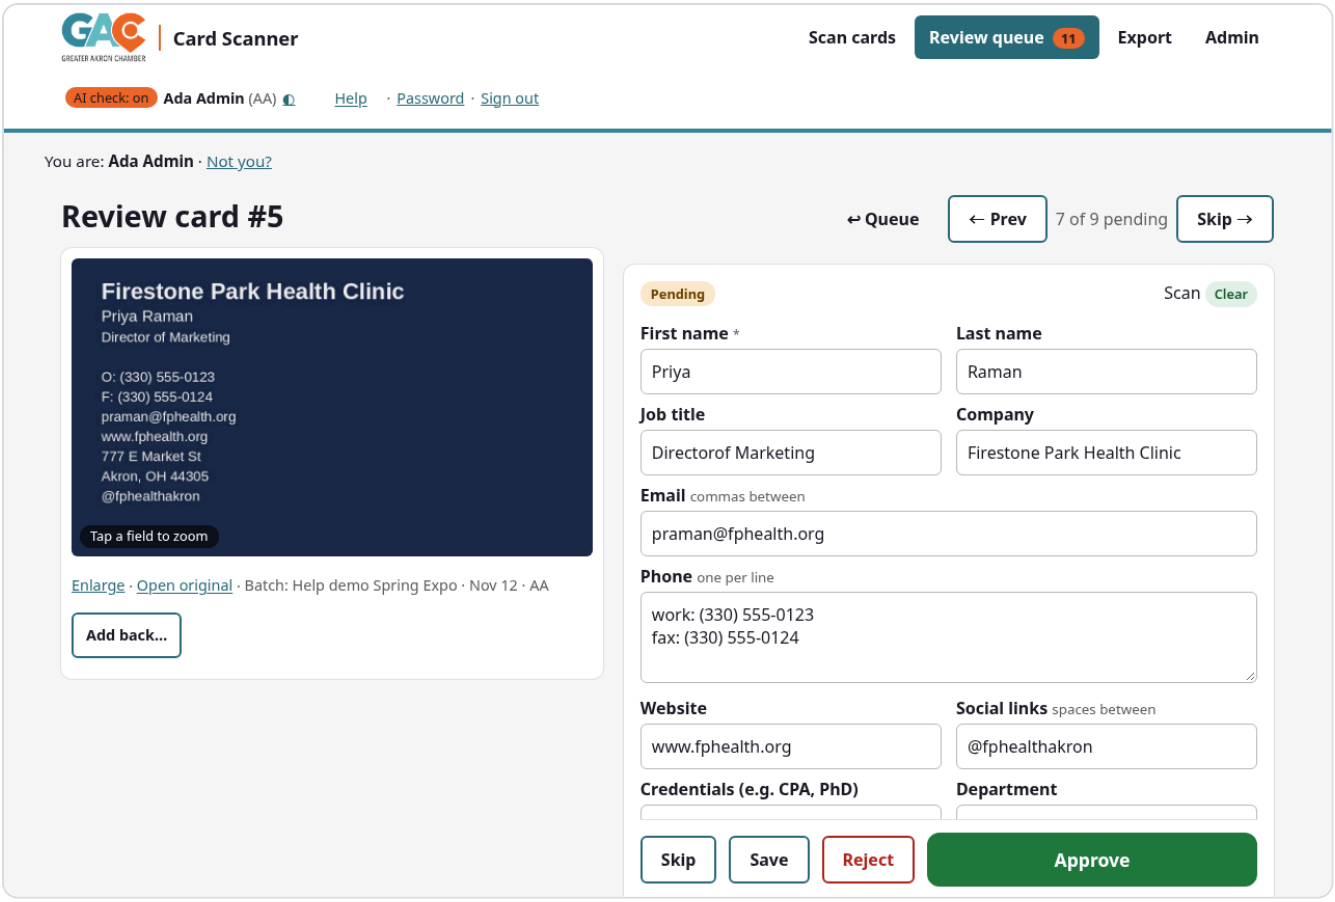

One card per photo, flat, no glare.

▼ More

Needs a look = check the photo · **Blocked** = fix first · **Not added** = skipped.

3. Review

Click **Review batch →**. Check each field, then **Approve** (or **Enter**).

- **Yellow** = check the photo.
- **Red box** = fix it first. If the card really shows it, press **Needs admin** in the red box.
- **Undo** (or **Ctrl+Z**) undoes your last change, in the current batch only.

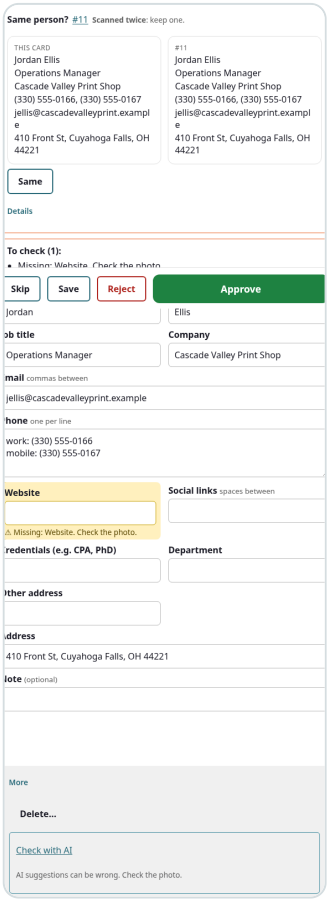

▼ More

Do this	How
See where a field was read	Tap the field. **Esc** = whole photo.
Fix a field	Type, then **Save**.
Reject	**Reject**, or **R**. It asks first.
Next / previous card	**Skip**, **J** / **K**, or the arrow keys.

changed = the scanner tidied it. Hover to see what it read. Only an admin can confirm a misread in name, title, company or department, or a block on email, website or address. Editing an approved card so it is blocked moves it back to **Pending**. The message says so.

4. Same person?

If a card looks like another one, you see both side by side.

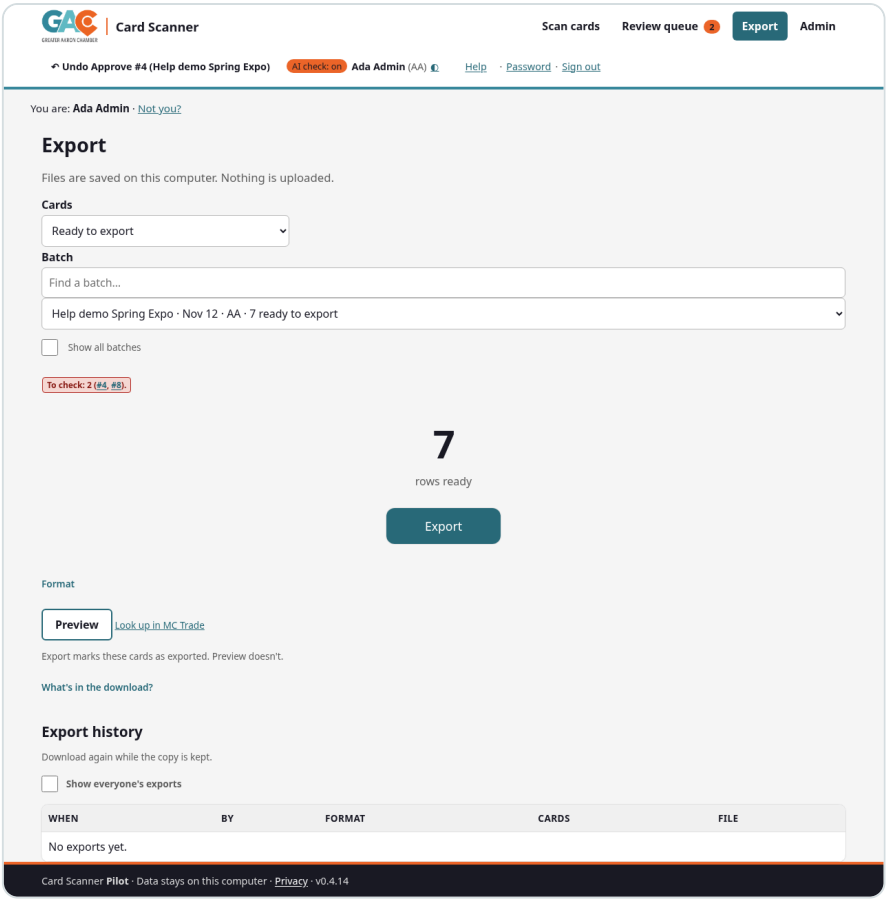

- **Same**: one card is kept, with the new details added.
- **Different**: both are kept.

Answer this first. If the person was exported before, **Approve** asks once: this person will be left out of the next file.

---

5. Export

1. Click **Export**. Your batch is chosen.
2. Click **Preview** to check the rows.
3. Click **Export**, then **Save**.

- Import only the file **IMPORT-ME_...xlsx**. A **Next steps** box names it.
- If cards are left out, the page says why in one line. Read the **Left-out list**.

▼ More

- **To check** = rows to look at before the import. The READ-ME lists them.
- **Edited after export, so it is not in this file unless an admin includes it.**
- **Waiting for admin** = cards you sent with **Needs admin**.

---

6. Ask an admin

Your admin: ask the front desk.

Ask when you are locked out, a red box says **An admin needs to confirm this**, or you need someone else's batch.
